

Article 31: You Are God!

Though the matron-lady in our Articles will consider us to be SMART-ALECKY, and may even get indignant or angry, we must declare that...

You Are God

and in your self and life, you are deciding exactly how you want to express your Godness ...and what universe you desire to create and live within, ...for every moment clearly reveals that you are creating and living within your own universe.

"But," you protest, "I can't move mountains, so I cannot be God!" In the same way that you can carry your own enLIGHTenment and never live in darkness; harbor viruses without being ill; walk through strife without being harmed; live in what others declare to be "hate" and live only love; or fully know that, since evil is only a different view of goodness; you may create and live in your universe of **all goodness**, in your universe of unconditional love, where hate or bad or evil does not and cannot exist, ...while others create and live in their self-chosen, self-created universe. But you have created (directly and by acceptance) unacceptable mountains and darkness and strife and hate and evil in your universe ...and now struggle futility against your own creations, which only maintains what you do not want. **Create and live only what and as you desire** ...and the mountainous burdens and obstacles will be removed from your self and life, for...

You Can Move Mountains.
