

Article 340: How Do You Think?

This week, you get to think the Article ...and tell others, so here's the question, **How do you think?** That shouldn't be too difficult, for, after all, you've been thinking for years ...such that thinking has become you and become your life. If you can only think your language and memories, and that seems to be so, then you will think continue your languaged-self over and over, ...is that what you want to continue? If not, it doesn't do any good to tell you to change your thinking if you don't know how you create a thought, for without know that, how can you possibly create a different thought? Have you noticed this problem in your life?

Therefore, you think about thinking and e-mail me an answer at: foreverl@hawaiiantel.net and I'll put all the pertinent answers into an Article for everyone else. Just to make it simple, you can tell me **how you create a single thought**, ...that should certainly be easy, ...but remember, if you say that "thoughts just come", then your life is out of your control ...and you are a "victim" to thoughts coming ...and being useful. You can do better than that! ...you must do better than that if you are to live your self and life as you truly desire.

Start your life over, ...think a new script!
